# 1. BEFORE YOU GO

## Passports

Your passport must be valid for at least 6 months after your trip ends.

PASSPORT DETAILS DEADLINE: 14 days before your adventure starts

- Complete the Aggressor Guest Information System (GIS)
- Your full name in GIS must match your passport exactly
- Include passport number, date of birth, and nationality

Why this matters:

The Thailand National Park requires each guest's passport information 14 days before departure to process a required diving permit. Your passport details are taken from the GIS and sent to the yacht.

Failure to complete the GIS before the charter departure will result in being denied permission to board and dive on the charter start date.

NAME CHANGES:

No name changes can be made less than 7 days before departure.

Children traveling: Some countries have special rules for children leaving the country. Check your government's travel website for requirements.

## Visa

Thailand offers visa exemptions or visa-on-arrival to most nationalities for tourist stays. Most U.S., Canadian, EU, UK, and Australian citizens receive a 60-day visa exemption on arrival.

You are responsible for:

- Confirming the correct visa or exemption rules for your nationality
- Completing the TDAC before arrival
- Having documents to re-enter your home country
- Checking visa rules for any connecting flights

Where To Check:

- USA citizens: [www.travel.state.gov](http://www.travel.state.gov)
- Other countries: Contact your foreign affairs office or embassy
- All travelers:

The [IATA Travel Centre](#) is a helpful resource for travelers checking current travel, visa, and health requirements.

Questions? Contact the Aggressor reservations office.

Visa and entry requirements can change without notice. Always verify before traveling.

## Thailand Digital Arrival Card (TDAC)

All non-Thai nationals entering Thailand by air, land, or sea must complete the Thailand Digital Arrival Card (TDAC) online before arrival.

- Submit within 3 days before arrival to avoid travel delays
- Register at: <https://tdac.immigration.go.th>

Required address for the South Andaman itinerary:

Visit Panwa Pier

88/88 M. 7 Wichit, Mueang Phuket District, Phuket. 83000

## Required Forms

You need two things before you can dive and a third if you plan to do scuba training:

### 1. GUEST INFORMATION SYSTEM (GIS)

*What:* Aggressor's online cruise application forms, including waiver and travel details

*When:* Complete 14 days before departure

*How:* You'll receive a link by email. If you didn't get it, contact reservations.

Include your flight arrival time or hotel name in the GIS.

### 2. DIVE CERTIFICATION CARD (C-CARD)

*What:* Your diving certification card

*Bring:* The physical card or digital proof

*Note:* If diving with Nitrox, bring your Nitrox certification card as well.

### 3. MEDICAL FORM (RSTC) *(Only if doing scuba training)*

*What:* Diving Medical History Form

*When:* Required only if you plan to take a scuba training or certification course during your trip.

*How:*

- Download the form now at <http://www.aggressor.com/RSTCMedical.pdf>
- Answer all questions honestly
- The form will tell you if your answers require a doctor's approval.
- If no doctor approval is needed, you can sign it yourself
- Print it and bring it to the yacht

ALREADY HAVE ONE? If you have a medical form signed by a doctor in the last 12 months, you can use that instead.

There are no doctors once the yacht leaves the dock. If you need a doctor's signature and don't have it, you cannot participate in any SCUBA training classes.

*What if I forget to complete these forms?*

- An incomplete or Missing GIS will result in denied boarding and possible trip cancellation without refund.
- You cannot dive without a certification card.
- You cannot participate in SCUBA training courses without a medical form.

## Travel & Health Insurance

Aggressor Adventures strongly recommends that all guests purchase insurance to protect your investment and health.

### SUGGESTED COVERAGE:

- Travel Insurance (Trip Cancellation and Interruption)
- Dive Insurance (Dive Accident and Medical)
- Equipment Insurance

### CONSIDER ADDING:

- "Cancel For Any Reason" (CFAR) upgrade – extends coverage beyond traditional policies without the constraints of “covered situations”.
- "Liveaboard Rider" upgrade - addresses liveaboard-specific issues such as missed dives due to illness, weather, or accidents to others, which impact your experience and more.

These policies provide financial security if unexpected events occur.

Get quotes: [www.aggressor.com](http://www.aggressor.com) → [Insurance](#) for options.

## 2. PREPARING FOR YOUR ADVENTURE (2-4 WEEKS BEFORE)

### Recommended Packing:

Travel light. Space on the liveaboard yacht is limited.

**LUGGAGE:** Use soft luggage, such as duffel bags (not hard suitcases), for easy storage in your stateroom.

### CLOTHING TO BRING:

- Lightweight, comfortable sportswear
- Swimsuits
- Light sweater or jacket for evenings
- Walking shoes for time ashore
- Sunglasses and hat

Dress code: Always casual and informal

### ESSENTIALS:

- Sunscreen (reef-safe recommended)
- Sunglasses
- Hat
- Walking shoes

**PACKING CHECKLIST:** Use this QR code to grab a free Packing Guide. It's a simple checklist that makes sure you bring everything you need for your adventure. No more forgotten essentials!

## Electronic Devices

Personal Electronics are welcome:

☑ Cameras, phones, satellite phones, computers, tablets, and e-readers

⚠ Drones: Permitted to bring on board, but flying is prohibited in Thai national park areas — which covers most of the South Andaman dive sites on this itinerary. Most guests choose not to bring one. Verify current rules at the time of travel.

The following devices are prohibited:

Prohibited Equipment	Notes
⊘ Underwater Scooters	Prohibited.
⊘ Electric Surfboards	Includes e-foils, jetboards, powered surfboards, and similar devices.

**CHECK WITH AIRLINE:** Some airlines have restrictions on lithium batteries in checked bags. Check your airline's rules before packing.

## Required Dive Equipment

All divers are required to have the following equipment. You may either bring your own or rent on board.

- Mask
- Fins
- Snorkel
- Buoyancy Compensator (BCD)
- Regulator with an Alternate Air source and a visible pressure gauge
- Dive Computer
- Tank (*provided*)
- Weights (*provided*)
- Weight belt (*provided*)
- Wetsuit
- Surface Marker Buoy (SMB) and Reel

### *WHY SMB & REEL ARE REQUIRED:*

All diving on this itinerary is conducted from tenders. Drift diving means surfacing away from the yacht, and the tender driver needs to see your surface marker to track your location for pickup. SMB and reel are required safety equipment for all guests. Practice deploying yours before the trip or on the initial check-out dive.

## Personal Dive Equipment

Mark each piece of your personal gear with waterproof paint or tape. Many pieces of diving equipment look similar, so make sure yours is clearly labeled.

Guests should also consider additional personal safety equipment such as:

- Dive Alert

- Nautilus Rescue Radio
- Whistle
- Mirror

## Airline Travel & Checked Bags:

WHAT TO CARRY ON THE PLANE: Pack these in your carry-on bag (NOT checked luggage):

- Passport and travel documents
- Dive certification card
- Medical form
- Money and credit cards
- Prescription medications
- One change of clothes (including swimsuit)
- Basic toiletries

Why? If your checked bag is delayed, having essentials in your carry-on means you can still dive on Day 1. Once the yacht leaves port, it cannot receive deliveries until it returns.

CHECK YOUR AIRLINE'S RULES: Different airlines have different limits for:

- Number of bags
- Weight limits
- Size restrictions
- Extra fees

BUSY SEASON RESTRICTIONS:

- Some airlines reduce luggage allowance during high season (December - April).
- You might only get one checked bag instead of two.

DIVE GEAR FEES:

- Many airlines charge extra fees for dive equipment.
- Check if your airline offers a "sports equipment" allowance.

## Communication with Home – Staying In Touch

Before departure:	Share your itinerary with family
Emergency contact:	+1-706-664-0111 available 24/7
In port (Saturday/Sunday):	Most cell phones will work if they have international roaming or data.
At sea:	SeaFi Internet is available for purchase Cell phones will work sporadically based on distance from towers.
Return day:	Most cell phones will work if they have international roaming or data.

Tip: Send a “heading out for 6 days” message Saturday evening so family knows you may be offline by choice.

## Green the Fleet Tips

Contribute to the Green the Fleet sustainability initiatives. Here are a few reminders to keep in mind as you get ready for your adventure:

- Avoid traveling with single-use plastics.
- Remove packaging from any new purchases before traveling.
- Travel with a refillable water bottle for hydration.
- Use rechargeable batteries whenever possible. Plan to bring home used batteries so they can be properly disposed of.
- Use an environmentally friendly or ocean-safe sunscreen.
- Be environmentally conscious in everything you do.

## Beverages

- Coffee
- Limited selection of local beer and wine

For other alcohol and spirits, you are encouraged to bring your special brand with you or purchase locally before boarding.

## Health & Medications

The Thailand Aggressor has a basic first-aid kit on board, including oxygen and an AED.

**Motion Sickness:** You might want to bring motion sickness medication if you think you'll need it. There are several over-the-counter brands for motion sickness medication. You can also consult your doctor about prescription options, such as the transdermal patch or Scopace tablets.

Currents and winds may cause moderate movement of the yacht at times.

**Medication Storage:** The Thailand Aggressor and its staff cannot accept any medication brought on board for safekeeping, including those that require refrigeration.

Guests needing temperature-sensitive medication should travel with a cooling case or a small storage cooler filled with blue ice packets. The staff will gladly store and recharge the blue ice but cannot accept responsibility for the proper care or storage of medication. This should be kept in your stateroom.

## 5. DIVING INFORMATION

### Diving Operations

All diving on Aggressor Liveaboard yachts is recreational and non-decompression. Aggressor Liveaboards do not support technical diving, rebreathers, or diving with double tanks.

On the Thailand Aggressor, all diving is conducted from two dive tenders. A staff member accompanies each tender group and is in the water to offer assistance and ensure the group stays together.

If a buddy team needs to surface early, the entire group is not required to abort the dive and follow. The buddy team should follow the briefing and their training procedures for surfacing from a dive and signal the tender driver that everything is OK once on the surface.

Once the dive time expires (per the briefing), the staff member will organize the remaining buddy teams to surface together for pickup by the tender.

All dives must remain within recreational limits. No decompression diving is permitted.

## Typical Schedule (Saturday – Saturday)

- No decompression dives (recreational limits only)
- Night dives available on several evenings

## Dive Supervision

- Diving is not just an activity; it's a passion for exploring the underwater world. That's why the dive program is built around empowering you and your buddy to take control of your diving experience.
- While in the water, you and your buddy are in charge.
- Every dive starts with a thorough briefing from the dive staff, covering site conditions, points of interest, and safety procedures.
- As certified divers, you and your buddy are responsible for planning and carrying out your dives while respecting your experience limits and those set by the briefing and your certification agency.
- Divers are not directly supervised - each buddy team manages their own dive.
- If you surface early, only your buddy team surfaces – other divers may continue their dive per the plan and briefing.

## Equipment Storage:

- Each guest will be assigned a designated seat on the dive deck and a personal locker or cubby to store items.
- There are also rails and hangers for your wetsuits.

## Photo & Video

**Photography:** The yacht offers free photography coaching while on board. The Thailand Aggressor has a large camera table and a 110V strobe charging station for your camera and video equipment.
